

Expression of interest for site assessment

Submitting an Expression of Interest (EOI) for a site assessment is the first step to take if you are interested in participating in the Biodiversity Credit Exchange.

The site assessment will be conducted by the Eyre Peninsula Landscape Board and involves your site being assessed for eligibility to participate in the program. It does not mean that you are required to submit a bid.

The Native Vegetation Council will prioritise eligible EOIs for site assessments based on alignment with criteria and the EOI being submitted prior to the closing date, refer NVC website or contact

the Eyre Peninsula Landscape Board for further information. If your EOI is not received by the closing date your EOI may be placed on a reserve list

Complete the information requested as accurately as possible. For assistance please contact the Eyre Peninsula Landscape Board on 8688 3200.

For more information on the Biodiversity Credit Exchange program, or to download this form, visit www.environment.sa.gov.au/bce.

Property owner details

Property owner (s) full name (this includes lessee/s of pastoral lease)		
Company name		
Postal address		
BCE Site address		
BCE Parcel details (eg CT or lot number)		
Contact phone numbers	Work	Mobile
Email address		
Preferred time and method of contact		
Are you interested in updates from the Native Vegetation Council on other programs and opportunities? Tick yes to be added to our e-newsletter distribution list.	Yes	No

Property details

Approximate property size (ha)		
Are there any existing property interest holders in the land? (e.g. easement, lease, mining interest, existing agreements). If yes, provide details.	Yes	
	No	
Please describe the existing land use (e.g. agriculture, livestock, horticulture, mixed farming, market gardening).		

Proposed biodiversity credit site details

Approximate size of the BCE site	
Please provide a description of the proposed biodiversity credit site, including the type of vegetation (woodland / grassland / shrubland) and any known flora or fauna species present. Additional information can be provided as attachments, if required.	
Is any part of the proposed biodiversity credit area covered by a conservation covenant or agreement for management, or has it received government or Native Vegetation Council funding (for either purchase or management)? If yes, provide details.	
Is there any previous, current or proposed future condition of use that may prohibit the site from being used as a biodiversity credit site (e.g. easement, land use intensification)? If yes, describe the condition of use.	

Attachments (please tick)

Proof of ownership (e.g. council rates or land title) or land owner consent	Site photos	Map showing site location

By signing below you certify that:

To the best of your knowledge, the information provided in this EOI is complete and correct and no information is false or misleading.

You have the agreement of all parties identified in this application to include their details in this application.

You/the organisation you represent support this application.

You consent, on behalf of all parties, to this application being referred to third parties for assessment (a consultant may be engaged to complete an on-ground assessment and will require a copy of your application).

You consent (should your application be successful) to have an on-ground assessment completed (at no cost to you) for the purposes of establishing the amount of credit generated at your site.

Declaration

I hereby certify that, to the best of my knowledge, the above information is accurate, I have all required consents to proceed with the application, and all required information is included.

Signed
(land holder)
