

THINKING REVEGETATION?

STOP!

HAVE YOU ASKED
YOURSELF THESE VERY
IMPORTANT QUESTIONS?

Why? Where?
What? How?
When?

CHECK & REVIEW

GET
HELP?

ASSESS THE SITE & YOUR GOALS

- CHECK THE SOIL TYPE • ASPECT • CLIMATE
- FROST / FLOOD / FIRE RISK • GRAZING PRESSURE
- WEED RISK - include what may come with disturbance
- REGENERATION POTENTIAL
- what species can naturally regenerate with a little help?
- could save time and money

DON'T PLANT IT IF
YOU DON'T HAVE TO!

NATURAL REGENERATION ?

- CAN YOU USE IT TO YOUR ADVANTAGE? (usually can!) • REDUCE GRAZING PRESSURE
- INVASIVE/AGGRESSIVE WEED CONTROL • TIME - it takes it!

REVEGETATION - KEYS TO SUCCESS

- GOOD SPECIES SELECTION • QUALITY SEED AND/OR SEEDLINGS • SITE PREPARATION - including weed control if needed
- TIMING - may be able to avoid watering • GRAZING PRESSURE/PEST CONTROL - can you avoid tree guards for that?
